

UN-UNICEF-UNESCO

— —o— Continued from page 2 —o—

This has happened most recently in Goa, previously in Vietnam, and in the Congo where we are picking up the tab to the tune of 47.5 million dollars to support a pro-communist cause. And now we are asked to bail out the United Nations with more of our tax dollars, 100 million of them to be exact.

If any nations should ascertain self determination, it should be the slave states of the Soviet bloc; Hungary, Poland, Czechoslovakia, Latvia, Lithuania, Rumania, and many others. We freed the slaves after the Civil War, but the only success the UN has had is for the Communists to gain more and more slaves.

Where our military is concerned, it seems they no longer get their orders from the Pentagon, but from the United Nations. As one of our military men put it: in one area, along the Berlin Wall, our troops are told to fight the Communists; then orders come from UN headquarters to send a number of plane loads of troops to the Congo to assist a pro-communist government to unseat an anti-communist, pro-western government, which in effect means we are fighting against ourselves.

How could we possibly get involved in an organization that is so powerful that they can get us to fight on both sides? This is peace? Remember the United Nations was supposedly born so we could all live in a peaceful world together.

One reason we are so involved is because our American representatives at San Francisco who helped make the Charter, and our Senate who ratified it, could not or would not see the difference between it and our Constitution and Declaration of Independence. Our Declaration of Independence states that we are endowed by our Creator with certain unalienable rights. The United Nations mentions no Supreme Being, but instead, itself grants rights or privileges, and then also reserves the right to take away these privileges if it so desires. Another reason we are so involved is because of our Constitutional provision that all treaties become the Supreme Law of the Land. We live up to our treaties and agreements. The Soviet Union does not, unless it's beneficial to her.

Over the years, state and local governments have yielded more and more power to Washington; Congress gives more and more power to the President and the President passes this power down to unelected individuals, like Alger Hiss, who because of the role he played in the writing of the United Nations charter wielded power over our lives, our liberty and our property.

UNICEF—its purpose is to promote health and combat disease and malnutrition in newly developing areas of the world. Why then doesn't it spend the \$36,100,000 it's holding. This amount does not include their regular annual income, so there's no reason why they can't spend it to alleviate hunger, especially on Formosa where there are many Chinese children who had fled their Mainland to escape Communist enslavement. In fact, there is over 1 million dollars which was allocated for Chinese children, but it remains in UNICEF's treasury. And this while UNICEF pleads for funds in their

circular "Let Your Greetings Help A Child." (atheistic greeting cards, you can be sure)

UNESCO is one of the specialized agencies of the UN also, created under the charter. Its program is channeled through radio, television, schools, churches, newspapers, magazines, movies, etc. Its purpose is high sounding too, but everything in it is for the international order. They don't say they want to destroy American patriotism, yet one of their aims is rewriting American textbooks, just as they have rewritten the history of man. "A Scientific and Cultural History of the Development of Mankind" was written by UNESCO contributors from many countries. Atheists helped with the writing of this book, key personnel and writers from the infamous Institute of Pacific Relations were contributors and consultants, and other contributors were Americans and foreigners who have records of pro-communist collaboration.

UNESCO doesn't say it wants to destroy religion, but look at how it presents internationalism and world citizenship as the most glorious achievement available to mankind. Do they ever mention God, or Christ, our Lord?

Their latest grab for power is the treaty "Convention Against Discrimination in Education," and the Recommendation, "Recommendations Against Discrimination in Education." If these two, or either of these are passed, it would mean that UNESCO would have control of our entire American educational system, and then one of their goals would be achieved. They would be able to reduce everyone to conformity. It was Lenin who said, "Give us the child for eight years and it will be a Bolshevik forever." And it's UNESCO who says, "The kindergarten or infant school has a significant part to play in the child's education. Not only can it correct many of the errors of home training, but can also prepare the child for membership, at about the age of seven, in a group of his own age and habits—the first of many such social identifications that he must achieve on his way to membership in the world society."

Eight Communist countries, including Russia and Cuba, aided in the final drafting of the "Convention Against Discrimination in Education." Two countries, France and Israel have ratified it. Only one more country need ratify it and it enters into force on every member country of UNESCO. Article eight of this treaty gives jurisdiction to the UN court. Article nine forbids any reservation, so that throws out our Connally Amendment. This puts you and me, everyone, under international law, subject to arrest, trial and punishment by the UN court.

Yes, the internationalists are working hard, and whether they know it or not, they were joined long ago by Communists, to make this United Nations into a one world government. For even if the internationalists don't know it, the Communists know that World Government is scheduled as the climax of Communist world conquest.

George Washington, in his farewell address, warned of foreign entanglements, when he told the American people, "Steer clear of permanent alliances." If we would heed his words, we could save our freedom.

— A Great Book For Patriots —

"THE BEASTS OF THE APOCALYPSE"

By Olivia Marie O'Grady

THE MOST ASTONISHING BOOK
ON THE WORLD CONSPIRACY

COMPLETELY DOCUMENTED
AND INDEXED

The contents may be challenged but never refuted.

Operation College Youth — OUR FUTURE LEADERS

Where are yours? Where are the back copies of the conservative, anti-Communist papers, periodicals, and newsletters you have been receiving these past months and years? If you are a typical subscriber, you have saved them all right, and your collection fills bags and boxes all over the house. A cautious estimate is that there are at least 375,000,000 pieces of informative material packed away, and 125,000,000 more pieces being printed and mailed annually! And what happens to yours when you are through?

Our Communist "friends" properly recognize that the biggest battleground in their war to bury us is the mind — particularly the expanding, normally rebellious, inquiring mind of today's college and seminary student. If they are successful in their battle to win these young unsettled minds, then they have also won the future — yours and mine. THIS MUST NOT BE!

If, by their simple act of providing college libraries with their subscriptions to subversive publications, and by flooding campuses with their material — if they are thus able to divert these youthful minds to their sinister purposes, THEN WHY CANNOT WE — WITH THE SAME TACTICS — SAVE THESE VERY MINDS AND GUARANTEE THE PRESERVATION OF THE IDEALS ON WHICH THIS NATION WAS FOUNDED?

Suppose — just suppose — that you purchase from any college near you a copy of the Student Directory which contains the names and addresses of all students and college personnel. Pull out all your back issues of your anti-Communist, anti-Socialist materials! Stuff them into envelopes and send them to these students whose addresses you have secured. AND KEEP IT UP! Every time you get a new issue, read it, and remail it to a college student!

Communists and Socialists reluctantly admit the difficulty of "selling" their lines where students have been exposed to anti-Communist literature. And we are selling something so admittedly superior to their subversion! Can a postage stamp save a country? Try it!

Contact your local college or university today for a copy of their Student Directory. Should you be unable to secure a Directory at the Registrar's Office, borrow one from a student or employee at the college. Then get busy addressing and stuffing envelopes. You can send up to one pound of marked "educational material" for only nine cents postage. Mail until you have emptied your collections of back issues. Place them where they can do the most good. Spot surveys have shown an average of eleven students reading material sent to one. On the other hand, Congressmen, being sent the same material most often NEVER see it, let alone read it or share it with others.

As patriots, our biggest failure has been the severe underestimation of the power of the individual. But presented here is one simple undertaking within the ability, time, and money demands of every single informed citizen! HERE IS WHAT YOU CAN DO — all by yourself in your own time.
